DEVELOPMENT OF NEW TYPES OF TOURISM THROUGH THE INNOVATIVE SERVICES IN THE HOTEL INDUSTRY

Abstract: thesis analysis mainly development of new types of tourism through the innovative services in the hotel industry. The substance of the utilization of innovations in the hotel business is to offer quality types of assistance and accomplish effectiveness by presenting the most recent technological innovations in the help of lodgings. Lodgings are a

significant piece of the convenience administration. Lodging is a multi-reason room intended for visitors to rest, rest and work. Hotels have various classes of rooms, which fluctuate in region, gear, solace, and so forth notwithstanding; regardless of what classification you have a place with, accommodation starts things out in each hotel room.

Keywords: innovations, hotel industry, hotel products, types of tourism, economy, services, infrastructure.

Our most important task is to create an environment of innovation in the worldview of our people. Without innovation, there will be no competition, no development in any field.

If we do not widely promote the changes in this area to our people, if we do not develop skills in people, we will not be able to keep pace with the intensity of today's times, the unprecedented achievements of science and technology. (Mirziyoyev Sh.M., President of Republic Uzbekistan)

The Decree of the President of the Republic of Uzbekistan dated February 3, 2018 «On additional organizational measures to create favorable conditions for the development of tourism potential of the Republic of Uzbekistan» such as introducing the shrines and shrines to the world.

The introduction of innovative technologies, changes in clientele interest for services, the improvement of transport, the extension of the geology of transport and numerous different elements have prompted quantitative as well as subjective changes in the stock of services in the hospitality business. it has been. By the seventeenth century, the contrasts among metropolitan and rustic convenience were exacerbated in the scope of services as well as in costs. Among the methods for convenience in the town can be recognized caravanserais and bistros. They as a rule offered a spot to remain and breakfast. The principle accommodations in the city were outfitted rooms, motel and lodgings.

Obviously, every hotel has its own authoritative design. For instance, the booking division might be essential for the business office, the acquirement office might be subjected to the finance manager, and the authority dinner administration might be added to the providing food service. At times the culinary expert reports straightforwardly to the CEO, and the providing food administrator can just manage the servers. Hotels are separated into a few kinds relying upon the level, reach and cost of administrations gave

Contingent upon the class of the hotel, its administration structure incorporates significant offices, for example, a business place, wellness

focus, specialist (now and again a little center). The retreat hotel has a head of relaxation. The quirk of the administration plot received in British hotels is that the reception service (Front office) is subjected to the head of financial services, in certain divisions of the reception service ranking staff, like senior phone administrator, senior doorman, senior clerk, data administration senior, booking administration senior and others. In huge hotels, the quantity of the executive's positions will increment.

The CEO will have three representatives for the number asset, cooking and organization services. The head of the room fund (Front office) is subjected to the monetary assistance (servants and public rooms, clothing, cleaner's room). The head of public cooking is given kitchens, cafés, bars, dinner administration, room administration.

A reasonable illustration of a creative way to deal with marketing is the way that organizations have their own sites, online media or destinations that are mainstream among explorers, like Expedia, TripAdvisor, Booking.com, Hotel Beds.

All things considered, the appraisals that clients leave on the Internet, the evaluations that are framed based on assessments of the services gave to them, fill in as a genuine promoting, advertising (PR) instrument for organizations that offer quality items.

The following theme we examined was the thoughts and proposition for the modernization of the travel industry in Uzbekistan and expanding the progression of vacationers to the country.

Obviously, the travel industry in Uzbekistan is creating in accordance with the necessities of the world market. Today, a traveler who needs to visit our nation can design his outing by means of the Internet, utilize the online services of inns and aircrafts.

In the country, uncommon portable applications on cell phones permit you to call a taxi, request food, book an eatery or get data about your objective on the Internet.

However, we need to do more to attract more tourists to Uzbekistan, to popularize the cultural, historical monuments and unique natural sites that we have. I believe that if measures are taken to ensure the peace of our people and the security of our borders, to create as many facilities as possible for the guests of our country to come to our cities and villages, to solve their problems with the help of innovations, tourism services in Uzbekistan will be more attractive. The program brings income.

СОВРЕМЕННЫЕ ТЕНДЕНЦИИ И ПРОБЛЕМЫ РАЗВИТИЯ ТУРИСТИЧЕСКОЙ ОТРАСЛИ УЗБЕКИСТАНА

Аннотация: в статье рассматриваются современные состояния и перспективные тенденции в сфере туризма Узбекистана. Определены основные проблемы развития сферы туризма и намечены пути их решения.

Ключевые слова: турпродукт, паломнический туризм, объекты культурного наследия, тематический туризм.

Аннотация: мақолада Ўзбекистон туризм соҳасининг замонавий ҳолати ва ривоҷланиши истиқболлари ёритилган. Туризм соҳаси ривоҷланишидаги асосий муаммолар ва уларнинг ечим йўналишлари кўрсатилган.

Калим сўзлар: туристик маҳсулот, зиёрат туризми, маданий меърос объекти, тематик туризм.

Туристическая отрасль Узбекистана имеет неплохой потенциал роста и начиная с 2016 года начала демонстрировать заметный рост по многим показателям. Страна начинает продвигать национальный туристический бренд на крупных туристических выставках и симпозиумах. Строятся планы, обсуждаются намерения по введению единых туристических виз если не во всей Центральной Азии, то вначале, хотя бы с Казахстаном. В аэропортах, вокзалах, при прохождении контроля, регистрации вводятся упрощенные процедуры, как для туристов, так и для граждан страны. Либерализация валютного рынка значительно упростило порядок хранения, обмена, использования иностранной валюты зарубежными туристами и
