**Abstract** The article is devoted to new up to date English teaching methods for learners. We showed the approaches of teaching English for students of high schools in Uzbekistan. We had analyzed CLL and CLT methods of teaching English and the benefit of them to the improvement of the language skills of native students. In this article it was also learned the method of "Suggestopedia" which is so important today.

**Key words:** teaching approaches, direct method, audio-lingual method, communicative language teaching method, silent way, community language learning, suggestopedia method.

**Introduction.** The means of language learning should include sending and receiving information between learner and teacher. Using of modern methods in learning language is not only effect to learn new language easily but also effectively. The learning methods of recently developed language can help to open perfect way to realize the language.

**Materials and methods.** We use lots of English teaching methods during learning new language. For example: 1.The Direct Method has ordinary rule. But no translation is allowed. It conveyed exactly in the main language the use of demonstration and visual aids with no recourse to the student's native language. It can help to students how to communicate in the target language. This method utilizes everyday vocabulary and 217 sentences. Grammar is taught inductively, correct pronunciation and grammar are emphasized. 2. Audio-lingual method is an oral-based approach and it uses of grammatical sentence patterns. Positive reinforcement helps to develop correct habits. 3. Communicative Language Teaching (CLT)

This approach is to help learners communicate simply and correctly. This can help create pleasant environment for learners.

4. Silent way. It helps to students learn new language autonomy. In this point, students make own methods without any issues. Teachers should give them only what they absolutely need to promote their learning.

5. Community Language Learning. (CLL)

Teachers make use of CLL method the target language communicatively. The students can know how to learn from one to another. This method can make friendly atmosphere and share their information without any barriers. The students who should be practicing the language, not the teacher.

6. Suggestopedia is the learning environment plays a central role that the important elements of the situation need to be briefly enumerated. Learning is facilitated in pleasant comfortable environment. The means of activating the material should be varied and playful for students.

**Conclusion.** To teach and to learn English in extra period is so important features of methodology. That's why trainers mostly try to concentrate to the methods showed below. It is extremely easy to learn new language with some unusual methods. Sometimes more than one method is used to learn language proficiently. It is usual to learn and understand foreign languages basing on the sense of the humanity. That's why we offer the methods showed below.
