Pakistan is the 24th largest developing industrialized country in the world in terms of GDP per capita (2019). Today, the country is one of the eleven countries with the greatest potential, striving to become one of the world's largest economies in the 21st century.

Keywords: Pakistan, Uzbekistan, economy, industry, cooperation, business, culture.

Introduction

Thanks to its significant socio-political, socio-economic, cultural-humanitarian and human potential, favorable geopolitical location and balanced foreign policy, the country today plays an important role in regional policy and addressing current international issues.

The comprehensive expansion of multifaceted mutually beneficial cooperation with Pakistan is in the interests of Uzbekistan, which is currently at a new historical stage of development. This was stated in the Address of President Shavkat Mirziyoyev to the Oliy Majlis¹.

Today, the necessary conditions are being created for the establishment and strengthening of effective dialogue between the two countries. The establishment of a powerful empire in the 16th century in modern Pakistan, India, Bangladesh and southeastern Afghanistan, founded by the great ancestor of the Uzbek people Zahiriddin Muhammad Babur, was the basis for the interaction of cultures and spiritual values. . The rich cultural, historical, scientific and educational heritage inherited from history will remain the eternal property of present and future generations.

Materials and Methods

Today, the two countries have embassies in the capitals of Uzbekistan and Pakistan, which contribute to the consistent development of cooperation established in May 1992. Friendship groups have been established in the parliaments of our countries, and political dialogue at various levels has become regular.

This is evidenced by the meetings of President of Uzbekistan Shavkat Mirziyoyev with President of Pakistan Mamnoon Hussain and Prime Minister Nawaz Sharif in the framework of international events (SCO and Islamic Cooperation summits) in 2017-2018. In April 2019, at the International Forum "One Place, One Way" in Beijing, and in June this year at the SCO Summit in Bishkek, the President of Uzbekistan met with the current Prime Minister of Pakistan Imran Khan.
