PREFACE

This textbook is for students studying English as a foreign or second language, from intermediate to upper-intermediate students (B1-B2 levels). While focusing on Grammar it promotes the level of all language skills in a variety of ways and concentrates on its practical application. Reading texts introduce variety of economic-based topics of interest to stimulate the free expression of ideas and open discussions. They are accompanied by post-text tasks and comprehension questions. Many of the exercises are available for group work and pair work and are viable as a classwork led by the teacher. It also includes additional extended context exercises.
