COLLETIONS OF SCIENTIFIC WORKS

MADRID 2024

PROSPECTS AND MAIN TRANDS IN MODERN SCIENCE: a collection scientific works of the International scientific online conference (29th February, 2024) - SPAIN, Madrid: "CESS", 2024. Part 9- 116p.

Chief editor:

Candra zonyfar - PhD Universitas Buana Perjuangan Karawang, Indonesia
Sunmoon University, South Korea.

Editorial board:

Martha Merrill - PhD Kent State University, USA

David Pearce - ScD Washington, D.C., USA

Emma Sabzalieva - PhD Toronto, Canada

Languages of publication: русский, india, english, казакша, o'zbek, limba română, Spanish, кыргыз тили, Հայերէն....

The collection consists of scientific research of scientists, graduate students and students who took part in the International Scientific online conference "**PROSPECTS AND MAIN TRANDS IN MODERN SCIENCE**". Which took place in Madrid on February 29, 2024.

Conference proceedings are recomanded for scientits and teachers in higher education establishments. They can be used in education, including the process of post - graduate teaching, preparation for obtain bachelors' and masters' degrees. The review of all articles was accomplished by experts, materials are according to authors copyright. The authors are responsible for content, researches results and errors.

LINGUOCULTURAL FEATURES OF IMPERATIVE MOOD IN ENGLISH LANGUAGE

Gadoyeva Mavlyuda Ibragimovna

f.f.d.(DSc), professor of English Linguistics Department at Bukhara State University, Uzbekistan,

Ibragimova Munojot Anvar qizi

1st year master student of English linguistics at Bukhara State University, Uzbekistan

Abstract: *As we delve into the realm of linguocultural analyses of the imperative mood, this thesis endeavors to bridge the gap between linguistic theory and cultural studies, unveiling the profound connections between language structures and societal practices. By honoring the legacy of prominent scholars and embracing the innovative perspectives of contemporary researchers, this study seeks to contribute to the rich tapestry of knowledge surrounding the intersection of language and culture.*

Key words: *imperative mood, linguoculture, grammatical form, cultural-specific variations, similarities, imperative constructions.*

The imperative mood, a grammatical form used in language to command, request, or express a desire, holds a central position in linguistic analyses across diverse cultures. This thesis delves into the intricate connection between language and culture through an exploration of the imperative mood, aiming to unearth the underlying cultural nuances that shape its usage patterns. By examining a range of languages and their respective cultural contexts, this study seeks to elucidate the cultural-specific variations and similarities in imperative constructions. Drawing on the seminal work of renowned scholars in the field of linguistics and cultural studies, this research embarks on a journey to unravel the complex interplay between language structures and sociocultural norms. Pioneering figures like Edward Sapir, Benjamin Lee Whorf, and Noam Chomsky have laid the groundwork for understanding how language reflects and influences cultural practices, paving the way for in-depth linguocultural analyses such as the one presented in this thesis.

In English, the imperative mood offers a rich ground for linguocultural analysis, as its usage is often intertwined with social norms, politeness strategies, and cultural values. Here are examples of linguocultural analyses of imperative mood in English:

DIRECTNESS VS. POLITENESS:

English imperative constructions can vary in levels of directness and politeness. For instance, phrases like "Give me that book" convey a direct command, while softer forms like "Could you pass me the book, please?" are considered more polite. This variation reflects cultural norms of politeness and deference, with different communities valuing either directness or tactfulness in communication.

POWER RELATIONS

The imperative mood in English can also reveal power dynamics and social hierarchies. In workplace settings, for example, supervisors may use imperatives like "Finish the report by Friday" to assert authority, while colleagues might employ more

collaborative imperatives such as "Let's work together on this report" to emphasize teamwork and equality. These linguistic choices reflect the cultural norms surrounding power relations within specific social contexts.

REGIONAL VARIATIONS

Regional dialects and cultural backgrounds can influence the use of imperatives in English. In certain English-speaking regions, such as the Southern United States, the imperative mood may be softened with expressions like "Y'all mind passing the salt?" which incorporates a sense of community and informality. This linguistic feature reflects the cultural values of hospitality and camaraderie prevalent in Southern American culture.

GENDER DYNAMICS

Linguocultural analyses of imperatives in English also shed light on gender dynamics and societal expectations. Research has shown that women are more likely to use mitigated imperatives, such as "Could you possibly..." or "Would you mind..." to soften commands, reflecting societal norms of nurturing and politeness often associated with femininity. In contrast, men may employ more direct imperative forms, showcasing the influence of gender norms on linguistic behavior.

DIGITAL COMMUNICATION

In the age of digital communication, the imperative mood in English has evolved to reflect online etiquette and virtual interactions. Imperatives in emails, social media posts, and text messages often incorporate emojis, memes, or abbreviations to convey tone and intention. The usage of imperatives in digital spaces reveals how cultural practices and technological advancements shape linguistic expressions and communicative styles in contemporary society.

By examining the linguistic and cultural dimensions of imperative mood usage in English, researchers can gain valuable insights into the ways in which language reflects and shapes cultural values, social norms, and communal identities within English-speaking communities.
